Les Engel
Central Minnesota Manufacturers Association
PO BOX 150
Elbow Lake MN 56531

Dear Les:

Thank you for your gift to St. Cloud Technical & Community College in 2014.

Your gifts provide student scholarships, enhance technology and equipment, and encourage innovative teaching and educational experiences at the college. Since 1999, donors like you have funded more than 2,000 scholarships valued at more than \$1 million.

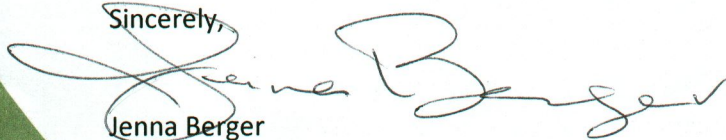

Your gifts not only support students, they contribute to the economic vitality and quality of life in our region. More than 70% of SCTCC students come from within one hour of campus. After graduation, SCTCC alumni choose to stay here to live, work, and raise their families. This is their home.

And, the work they do in this community is significant. SCTCC graduates design and build sturdy structures for our homes, businesses, and schools, and they care for our children. SCTCC graduates ensure we have clean drinking water and safe cars and trucks on our rural roads and interstates. SCTCC graduates provide critical, compassionate care in our hospitals, clinics, and during emergency response. They manage our banks and businesses with integrity, ensure a secure technological infrastructure, and help put bright, healthy smiles on our faces. An investment in SCTCC students truly is an investment in our community, in our future.

The attached receipt acknowledges your gift made in 2014. If you have questions, please contact the SCTCC Foundation at 320.308.5668.

Thank you for your continued support, for helping provide *education that works* for Central Minnesota.

Sincerely,

Jenna Berger
Executive Director

Les -
Wow! You
have made
such a
difference!

Acknowledgement

St. Cloud Technical & Community College Foundation
VEX/Robotics.....\$1,000

Thank you for your support!
