Supermileage Sponsor,

The MTEEA Supermileage Challenge was held May 15-16, 2017 at Brainerd International Raceway. Vehicles from Minnesota, Wisconsin, North Dakota, Iowa and Canada competed in five different classes to achieve the highest fuel mileage rating over 6 averaged runs.

The GSL Supermileage Team had a great finish. Our new Electric vehicle finished in 6th place with 1770 MPG comparative to Gasoline fueled vehicles. Our Blue Modified vehicle achieved a highest mileage of 138 MPG. The E-85 vehicle, Pink Cadillac, Achieved a highest mileage of 228 MPG and also finished in 5th place. The Little Red Corvette did not complete a run due to mechanical problems.

Students on this year's team include: Jacob Jochum, Michaela Neyers, Blake Ortloff, Kole Polzin, Roxanna Sanchez, Isaac Swift, Adam Thalmann, and Eric Villnow.

The Supermileage project is critical to our Engineering and Industrial Technology program at Glencoe Silver Lake High School. We thank you for your part in supporting this program. You are helping give students a real-world project with implications for student career choices.

Thank You,

*Mike Sundblad* *Blake Ortloff*  
*Adam Thalmann* *Roxanna Sanchez*  
*Kole Polzin*  
*Eric Villnow*  
*Carl A. H.*
