

## Set-Up Mechanic

T.O. Plastics, headquartered in Clearwater, MN, is seeking an experienced **Set-Up Mechanic** to work with our 2nd shift Production team at our Otsego, MN plant. The Set-Up Mechanic is responsible to the set-up of production machines, performing mechanical adjustments, troubleshooting problems during operation and preventive maintenance. Duties also include some building maintenance duties.

Basic machine operation and set-up experience is required. The candidate for this position must have a strong background in machine maintenance and troubleshooting. Ideally, the candidate best suited for this position will have knowledge of PLC's, servo controls and variable speed drives. This person should feel comfortable using computers, specifically Excel and Word. Good communication skills, both verbal and written are needed, to communicate with the 1st shift mechanic and other departments. Working knowledge of plastics processing, blow/injection molding and film extrusion are an important to be successful in this position.
